**Business Outlook**

TowerJazz expects revenues for the first quarter of 2019 to be \$310 million, with an upward or downward range of 5%.

**Mr. Russell Ellwanger, Chief Executive Officer of TowerJazz, commented,** “We are pleased with our fourth quarter sequential revenue and margins’ growth, in the face of multiple recent market financial releases citing near-term macroeconomic concerns, resulting in a semiconductor market that is tightly controlling inventories. We enter 2019 with certain geo-economic headwinds but remain confident in our value creation thesis. In each of our focused areas, we have had recent strong customer wins, namely advanced infrastructure, 5G enabling switches, breakthrough power management efficiency, and unrivaled industrial and medical image sensors figure-of-merit. These market segments are strategic and solid mid- to long-term growth drivers. The powerful aforementioned parallel activities of our different business units, driven by worldwide impassioned

human capability, and strengthened by our growing financial resources, will undoubtedly create notable milestones throughout the year.”

Ellwanger updated: “We continue to progress with our TPSCo partnership, aligned on a first contract extension of 3 years for the next phase of TPSCo, beginning the second quarter of 2019. We expect similar loading as present run rate, with some changes to the pricing tables, resulting in some revenue reduction from our partner. This is expected to be mitigated by core business revenue growth, mainly 300mm which is presently ramping, strong efficiencies, and TPSCo specific cost reduction activities, enabling margins’ growth.”
